READY TO PROVIDE YOUR WASHROOM VISITORS WITH A CONTINUAL SOURCE OF PLEASANT, HYGIENIC FRESHNESS THROUGHOUT THE DAY?

The scent of your washrooms has a huge impact on the experience and happiness of both your staff and visitors. Odours that are not dealt with, can have a negative effect on your reputation too.

That's why, it's in your best interest to keep your washrooms smelling and feeling fresh and clean – at all times.

SMELL IS OUR MOST POWERFUL SENSE

Keeping your workplace clean and fresh-smelling has a positive effect on both your staff and visitors alike. Odour Control Services from Fresh & Clean are designed to keep your washrooms fresh and pleasant for everyone.

AIR CARE

KEEP YOUR WORKPLACE
SMELLING FRESH

Tork A3 Air Freshener

Introducing the Tork A3 Air Freshener - your solution for maintaining a consistently fresh and pleasant washroom environment. This innovative air freshener features advanced technology that neutralises unpleasant odours by altering their properties, making them undetectable.

Key features and Benefits

- **Continuous Freshness:** Utilises cutting-edge distribution technology to ensure a steady and even release of fragrance, eliminating the common spray-and-fade effect. Available in three scent options - Breeze, Blossom, and Odour Neutraliser.
- **Effective Odour Elimination:** Targets and neutralises bad odours rather than merely masking them.
- **Flexible Placement:** Can be placed at any height, eliminating the need to position the dispenser close to the ceiling.
- **Eco-Friendly:** Propellant-free, non-aerosol, and non-flammable, with recyclable refills.
- **User-Friendly:** Certified 'Easy to Use' for hassle-free refilling, with adjustable 90-day refill setting and LED indicators to help you plan your refills efficiently.

Automatic Air Freshener

Our most popular choice, the Automatic Air Freshener, combines sleek, tamper-proof design with high performance. Available in black or white, this dispenser seamlessly complements any work environment.

Key Features

- **Customisable Settings:** Adjust fragrance delivery with a remote control to cover up to 70 cubic meters.
- **Variety of Refills:** Choose from natural organic fragrances, odour neutralisers, and pest control options.
- **Eco-Friendly Ingredients:** Crafted with care to enhance freshness while being kind to the environment.
- **Automatic Operation:** Delivers consistent scent at regular intervals, ensuring continuous freshness.

Veria Passive Air Freshener

The Veria Passive Air Freshener combines simplicity, advanced engineering, and environmental sustainability for a superior air freshening solution.

Key Features

- **Easy to Use:** The unique refill load and wick system offers a hassle-free alternative to aerosol cans.
- **Eco-Friendly:** Made with naturally derived, biodegradable ingredients that neutralise odours.
- **Recyclable Refills:** All refills are fully recyclable, supporting your commitment to sustainability.

Choose Veria for a fresh, clean environment that's both effective and environmentally responsible.

NOT JUST FRAGRANCE...

All of our dispensers are designed to fit refills that can be used for odour neutralisation or control of unwanted insects.

ODOURBAN™

ODOURBAN™ is more than just an air freshener – it's a powerful odour neutraliser.

Its professional-strength formula features two odour counteractants that attack and neutralise malodour molecules at their source, whether in the air, on surfaces, carpet, or fabric. It's effective against tough odours from rubbish rooms, tobacco smoke, bathrooms, and pets. It leaves behind a clean and enduring fragrance and has a versatile application meaning its suitable for various environments ensuring a consistently fresh atmosphere.

INSECT CONTROL

Our insect control products prioritize environmental responsibility by using natural pyrethrins instead of synthetic pyrethroids.

Pyrethrins, derived from the chrysanthemum cinerariaefolium plant, are a natural insecticide that rapidly breaks down in the environment. Its key features are that the product contains natural pyrethrins, effective insect control derived from a perennial plant with a daisy-like appearance which controls flies, mosquitos, and most flying insects. It's also eco-friendly with a CFC-free aerosol that ensures minimal environmental impact.

THE FRESH & CLEAN TEAM ARE PASSIONATE ABOUT ENSURING YOUR WORKPLACE SMELLS AS PLEASANT AS POSSIBLE.
