1 DUST CONTROL

Keep your workplace safe, dust-free, and hygienic with AlSCO Uniforms dust control mats. Dirt, dust, water, and oils are common hygiene challenges in workplaces across New Zealand. These dust control mats are highly absorbent and durable, capturing up to 80% of dirt and dust. Place these mats in high-traffic areas such as entranceways, hallways, and work areas to minimise dirt and maximise safety and cleanliness.

4 SAFETY MESSAGE

Gently remind employees of safety procedures and help keep your workplace incident-free. Accidents are almost inevitable in any New Zealand workplace, but the frequency of these incidents can be greatly reduced by enhancing employees' awareness of safety rules. Choose from 8 different safety messages to keep your employees continually aware of important safety policies, or if you need a specific message, we can create custom designs for your safety mats to communicate any message you need.

2 CORPORATE BRANDED MATS

Make a lasting impression with AlSCO Uniform's logo mats. Your entrance is the first and last impression visitors have of your business. With AlSCO Uniform's custom logo mats, you can ensure that this impression is both striking and memorable. Our logo mats are not only a smart, cost-effective way to enhance your reception area, but they also reinforce your brand's image every time someone steps through your door.

5 ANTI FATIGUE

Ensure an accident-free environment and promote the well-being of your employees with AlSCO Uniforms Anti Fatigue mats. Perfect for high-traffic areas such as busy kitchens and heavy foot traffic and garages with frequent solvent spills. The textile nitrile rubber provides a non-slip surface, reducing workplace accidents, but is also firm yet cushioned, minimising fatigue and discomfort from hard floors.

3 WELCOME

Give your visitors the warm welcome they deserve while keeping your workplace 70% cleaner and more hygienic. Our Welcome Mats are our most popular floorcare rental product in New Zealand, and it's easy to see why. They collect dirt and dust at the door, keeping your workplace clean, hygienic, and presentable for both your staff and visitors.

6 WET AREA

AlSCO Uniforms' wet area mats are the perfect solution for maintaining safety and hygiene in environments prone to moisture. These mats are specifically designed for use in kitchens, showers, and other wet areas where the risk of slips and falls is high. Their non-slip design ensures that they stay securely in place, providing a stable surface even when exposed to oil, water, and grease.
