

HAND CARE

KEEPING YOUR
WORKPLACE HEALTHY

ALSCO
UNIFORMS®

FRESH*
& **CLEAN**

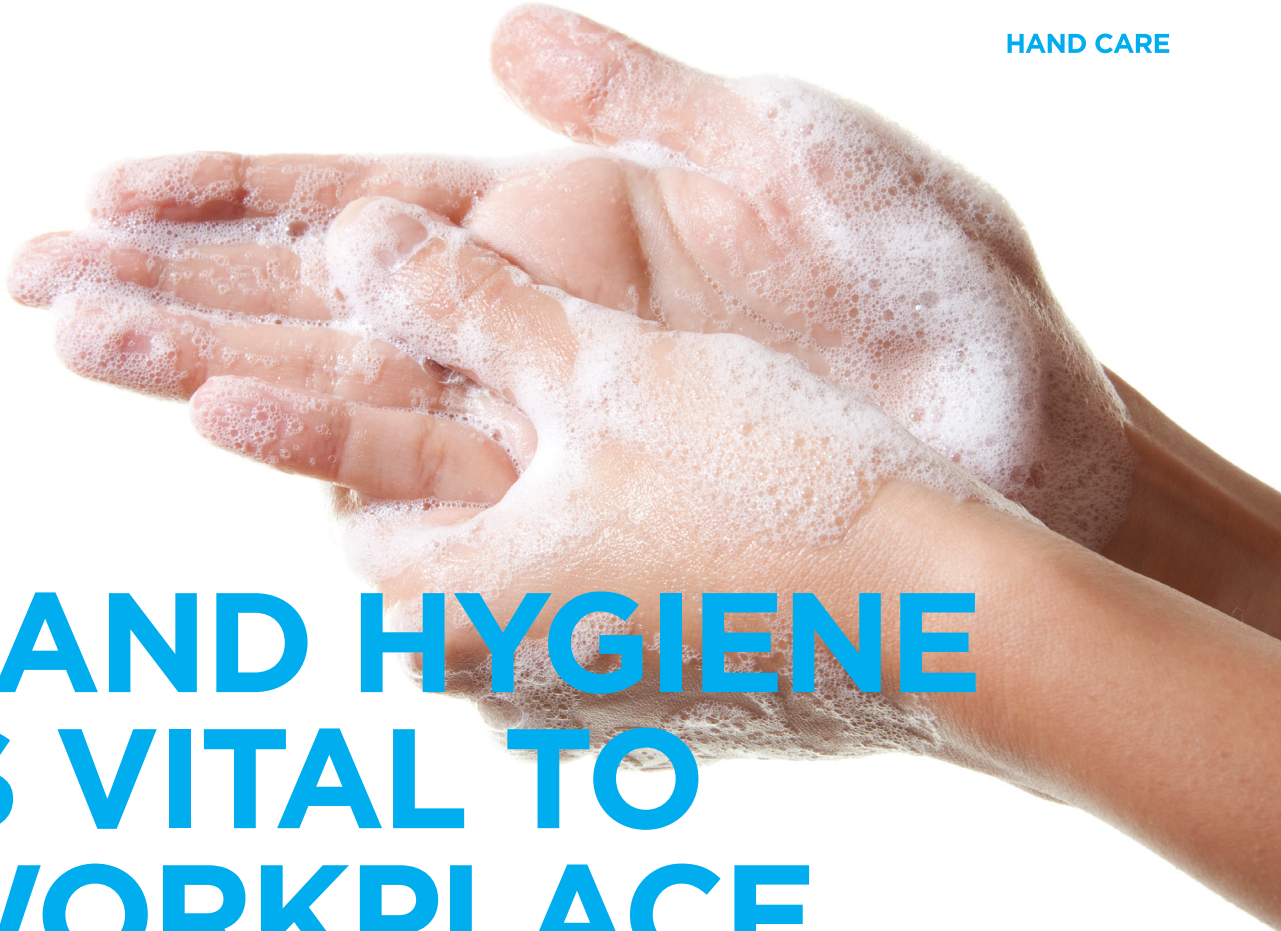

HOW CLEAN ARE YOUR HANDS?

For typing, writing, eating or driving, we rely on our hands every day for almost every activity. This constant use makes hands susceptible to many forms of bacteria and disease. This highlights the importance of a good hand care routine.

We can help stop the spread of diseases and infections with a little care and cleanliness.

AlSCO Uniforms' hand care products are effective at getting rid of dirt and potentially harmful microbes at the same time. And limiting potential illnesses in the workplace isn't exclusive to washrooms.

Wherever there's a need to wash your hands, AlSCO Uniforms can help. Professional kitchens, office gardens, entry/exit points and more are all locations where hand care units would be beneficial. We can install a personalised hand care system to suit your business.

HAND HYGIENE IS VITAL TO WORKPLACE HEALTH AND WELLBEING

Fresh & Clean offer hand hygiene programs specifically designed to meet your requirements. We provide a range of soap, sanitising and hand drying solutions to prevent the spread of bacteria and viruses, keeping your workplace healthy and safe. Our range of manual and touch free hand hygiene solutions provide multiple reasons why you should leave your washroom hygiene in our capable hands.

EACH ELEMENT OF OUR HAND CARE SERVICE IS TAILORED TO FIT YOUR BUSINESS NEEDS

In running a business, there are a million details to take care of. We aim to make washroom products the least of your concerns! Choose from a range of hand soap and sanitiser refills.

Foam Soap

Soft and luxurious, foam soap leaves users with clean and moisturised hands. Sealed refill bottles reduce the risk of cross-contamination when loading in their compatible dispensers.

Liquid Soap

Ensure the most effective cleaning by choosing the right formulation for your needs. Formulations include mild, extra hygiene, oil and grease, hair and body, and sanitising alcohol gel.

SOAP & SANITISER

An excellent standard of hygiene is easy to come by with the right washroom products. Our range of dispensers for soap and skincare products provide optimal hygiene for washroom visitors. Sealed bottle refills make for simple and sanitary maintenance.

Dispensers

Our dispensers are exceptionally well-designed to look smart, work reliably, and impress your washroom visitors. Available in black or white, manual or sensor-activated options, we have a dispenser to suit your needs.

Heavy Duty Soap

Our heavy duty soap is designed for industrial environments, where it is important to have an effective hand-washing and cleaning solution that can remove heavy dirt, oil and grease, whilst being kind to the skin.

Sanitiser

Whether your business requires an extra boost against pathogens, or frequent hand cleaning without access to water, hand sanitiser is a great option. Our high-quality formulations are easy on skin and contain moisturising ingredients, leaving hands refreshed and healthy.

Barrier & Restorative Creams

Create a barrier to protect hands against skin irritation from sticky, irritating and staining industrial substances with a water soluble, greaseless barrier cream.

HAND DRYING

Hand drying – surprisingly – is just as important as hand washing. Improperly dried hands aren't just bad for hygiene. They can actually contribute to the spread of bacteria – on both yourself and in the washroom.

Whether you prefer traditional, tried-and-tested cloth towel dispensers (invented by AlSCO Uniforms), or super-fast drying jet dryers, we have the range of products to work for your business.

Air Towels

Fast dry, high speed, low noise, heavy duty, or small and discrete - AlSCO Uniforms' range of Air Towels are built to last longer and provide your business's washrooms with an economical, reliable, effective drying system.

Cloth Towel Dispensers

The continuous cloth towel dispenser is one of the most effective and preferred drying solutions in New Zealand. An original invention from AlSCO Uniforms, our cloth towel dispenser is the most environmentally responsible drying option available to your business.

Paper Towel Dispensers

Tried-and-tested, these paper towel dispensers are a convenient and hygienic solution to washroom drying in your business. Stocked with soft, unscented towels for a pleasant, safe drying experience – even for sensitive skin.

Soft Cotton Towels

Our soft cotton towels are designed, manufactured and sanitised in house for maximum quality control. Leave your customer's/staff feeling a little indulged with AlSCO Uniforms' range of crisp, comfortable, luxurious linens.

THE FRESH & CLEAN TEAM ARE PASSIONATE ABOUT ENSURING YOUR WASHROOM HYGIENE IS TAILORED TO HOW YOUR BUSINESS RUNS.
