TECH RANGE

Workwear for Professional Technicians

V1 July 2026

Why We're Refreshing Our Tech Range

At Deane, we see uniforms as more than just workwear—they reflect your brand and your people. We've made some updates to our Tech Range, with a cleaner, more modern look.

Professional Image

- Automotive & Technician teams expect more from their uniforms—professional, comfortable, and on-brand
- Our updated range is built to meet those needs
- Smart, practical, and made for real work
- Designed to last, day in and day out

Performance & Style

- Modern styling with a clean, professional look
- Updated colours and a better fit for today's teams
- Helps your team look sharp and feel confident
- Built for real work, with practical features throughout
- Tough, durable construction that stands up to the job

Feedback Based Design

- Shaped by real feedback from customers and wearers
- Built for all-day comfort as well as performance
- Designed to help your team stay productive
- Modern design for a better fit and feel
- Helps employees feel confident at work

Aligned to Trends

- Keeps your tech range up to date and in line with current workplace trends
- Designed to stay relevant and competitive in today's market
- Creates a smart, professional and consistent look for your team
- Helps strengthen your brand image
- Supports attracting and retaining staff

Why Choose the New Tech Range?

A modern, durable, and professional uniform solution that helps your people look great, perform confidently, and represent your brand with pride.

Modern Professional Look

Contemporary styling and updated colour blocking create a cleaner, more professional appearance for your team.

All-Day Comfort

Modern fits and wearer-focused design help keep employees comfortable throughout every shift.

Enhanced Brand Image

A consistent, professional uniform helps strengthen your brand and create a positive customer impression.

Practical Functionality

Purpose-built features support the daily needs of technicians, mechanics, and service professionals.

Employee Appeal

A stylish, contemporary design that employees are proud to wear, helping promote engagement and retention.

Future-Focused Design

Created to reflect the evolving automotive and technical industries while maintaining trusted durability.

The Fabric

Our Tech Range is built using a proven 65% polyester / 35% cotton poplin fabric, combining the durability of polyester with the comfort and breathability of cotton.

160gsm Shirt Fabric

Provides a lightweight, breathable feel that helps keep wearers comfortable during long shifts, while offering excellent colour retention and easy-care properties.

240gsm Overall Fabric

Provides added strength and durability for high-wear applications, delivering the toughness needed for daily workshop tasks without compromising comfort.

Key Benefits

A trusted fabric blend that delivers comfort, durability, and professional presentation—making it ideal for modern automotive and technical workplaces.

- Durable & Hardwearing
- Comfortable to Wear
- Professional Appearance
- Easy Care

Key Features

Flat Track Work Shirt

Back Design

Re-balanced vent seam and shoulder pleat improve breathability and movement across the upper back.

Re-engineered fit
Streamlined shoulder construction, reduces bulk & enhances range of motion

Reflective Piping
Reflective accents built for the workshop

Branding Space
Front Chest for Brand Recognition

Welt Pockets with Dome Closure
Secure storage with contrast detailing for a clean, reinforced finish

Breathable Underarm Mesh
Targeted ventilation for comfort during high movement or heat

Reinforced Front Panel
Adds durability and structure while creating a strong colour-blocked design

Key Features

Drag Race Overall

Back Design

Re-balanced waist elastic and added movement seam from shoulder blade through waist improve flexibility and comfort across the back

Collar
Can be buttoned up for protection or left open for a relaxed look. Reinforced with twin-needle stitching for durability

Welt Pockets with Dome Closure
Secure storage with contrast detailing for a clean, reinforced finish

2-Way Front Zip
Allows easy access and flexibility on the job, practical for all-day wear

Adjustable Cuffs
Twin-needle finish with secure adjustment for comfort and strength

Reflective Piping
Reflective accents built for the workshop
